

## **Pump Selection Software**

Ampco now offers free pump selection software on our website at [ampcopumps.com](http://ampcopumps.com). This easy-to-use program will select the proper Ampco pump for any sanitary, marine or industrial application. With this program you can easily correct for viscosity, specific gravity or motor speed. You can also print a customized pump curve for your required operating point (see inside page for an example). To use the program, just go to our home page, click on "Pump Sizing Program", enter your email address and you're ready to go. If you have any questions, please contact your regional sales manager or the Milwaukee office.

## **Ampco's Pump Primer**

Ampco's Pumps Primer is a series of 20 articles on the operations, applications and environment of centrifugal pumps. These articles are a valuable reference tool for everyone in the pump industry, from the novice to the expert.

1. Introduction – A Pump Odyssey
2. Pump Curves I
3. Cavitation
4. NPSH
5. System Curves I
6. Practical Limits for Centrifugal Pumps
7. Energy Savings
8. Dynamic Sealing
9. Maintenance
10. Corrosion
11. Sound
12. Motors
13. Variable Speed Drives
14. Viscosity
15. System Piping Designs
16. Erosion
17. Pump and System Curves II
18. Effects of Developed Hydraulic Loads
19. Standard Motor Controls
20. Instrumentation

You can print individual articles or the complete series from our website under Literature and Technical Data.

## Just a Reminder!

If you have received a quotation from one of our sales staff, please remember to include the quote number on your purchase order. Also, please remember to specify impeller trim and seal materials on all pump orders.

## Trivia Contest

**\*\* Win a Starbucks Gift Card\*\***

Who is the author of the Pump Primer articles?

Please fax your response to 414-643-4452 no later than April 15th. Good luck!

## Did you know?

If you add an e-mail address to your purchase order, the carrier will e-mail your tracking information directly to you!
