Ampco Pumps Company

Electronic Cross Reference Guide

Navigation

This document is a useful cross reference guide in referencing Fristam part numbers and their Ampco replacement. It lists both the old version of Fristam's part number, the current Fristam part number, the Ampco equivalent part number, and an item description.

The item numbers are not in sequential order, but the descriptions are. However, to search for a specific part number, it is easiest to hit CONTROL+F and that will bring up a find feature. Type in your part number and the search will find where the part is in the reference pages.

Please note that Ampco offers stainless steel adapters and silicon carbide vs. carbon seals as standard items. In these cases we will reference one single item to replace both the standard Fristam part and also the upgraded optional part. Ampco also issues only one impeller number with a trim size whereas Fristam offers individual part numbers for a wide variety of impeller sizes.

For pumps or parts not listed in the cross reference pages, please contact Ampco Pumps for assistance.

Note:

Not all pumps and part numbers referenced in this guide are currently available from Ampco. Please see your price lists or contact the factory with any questions.

Pumps

Fristam Pump Model	Pump Size	Motor RPM	Ampco Pump Model
FZX 2100	2 x 2	1750	SP-210
FZX 2150	2 x 2	1750	SP-215
FZX 2200	2 x 2	1750	SP-220
FZX 2250	2½ x 2½	1750	SP-225
FZX 2400	3 x 3	1750	SP-240

FZX-2000 Seal Kits

Old Fristam Part Number	New Fristam Part Number	Ampco Part Number	Fristam Description	Ampco Description
66507607	1802600010	GS2600010-SC	Single Seal Kit FR/N/V	Single Seal Kit C/N/V
66507613	1802600016	GS2600012	Single Seal Kit FR/C/V	Single Seal Kit C/C/V
66507609	1802600012	GS2600012	Single Seal Kit C/C/V	Single Seal Kit C/C/V
66507615	1802600018	GS2600018-SC	Double Seal Kit FR/N/N/V	Double Seal Kit C/N/N/V
66507621	1802600024	GS2600020	Double Seal Kit FR/C/N/V	Double Seal Kit C/C/N/V
66507617	1802600020	GS2600020	Double Seal Kit C/C/N/V	Double Seal Kit C/C/N/V

Note:

Ampco manufactures a silicon carbide rotating seal as standard in place of the Fristam chrome oxide seals.

Seal Details

FR = chrome oxide coated stainless steel

C = silicon carbide

N = carbon

V = Viton

Cover Gaskets
